## VI. Update, Discussion, and/or Action Items

### a. Program Recommendation Process

- i. The Program Recommendation Workgroup is composed of 10 members: Alex Davis, Gustavo Chamorro, Marcia Wilson, Richard Verches, Lori Sanchez, Juan Madrigal, Lorraine Vega, Shari Herzfeld, Dorsie Brooks, and Maria Madrigal
- ii. The workgroup focused on implementing the feedback that LAOCRC had received regarding the current Program Recommendation Process
- iii. Dr. Chamorro presented the new Draft Program Recommendation Chart and walked through the outlined steps
  - 1. Recommendation 1: Use COE as the starting point for LMI data; a data request should be submitted as soon as the college has an idea of creating a new program
    - a. COE is working to add a field to upload documents to provide supplemental data when submitting a data request
    - b. The "shelf life" of the program data request is two years
  - 2. Recommendation 2: "Notices of Intent" is changing to "program data request/s;" Requests submitted by the deadline are included on the agenda of the next CLRC meeting each month.
  - 3. Recommendation 3: The process indicates that a program that is listed on a CLRC Business Meeting agenda, as having completed a data request form, cannot be on the agenda for Program Recommendation in the same month.
  - 4. Nick Real, Cerritos College Voting Member, had a concern in regards to Step #4 on the chart because the every college has a different system in creating the curriculum
    - a. In addition, he had concerns in regards to Step #5b on the outline process document
      - i. Nick reminds everyone that all the information is available online and faculty can have access to everything; Cerritos College faculty does not

depend on the CRLC member to stay informed of programs being submitted

1. The faculty at Cerritos College contacts the colleges directly when they have a questions or concern regarding any program; they do not rely on the CRLC member
  - ii. Dorsie Brooks from Golden West College shares with Nick that the step shown on the Program Recommendation Process outline is a process to ensure your faculty is having a discussion with other colleges
  - iii. It was agreed that colleges can decide to grant access to their faculty as desired, but the CLRC members are expected facilitate the faculty to faculty interaction
5. Rocky Cifone, Citrus College Voting Member, asked if COE includes a list of colleges with the same program on the LMI report
- a. COE does include the list of colleges that have the same program by Top Codes
  - b. If the report provided by COE does not list a college, but the college would like to be contacted (i.e. they might have a similar program in another Top Code or are perhaps planning to develop a program as well), they must reach out to the requesting college.
  - c. COE will also be using the official Top Code name as the header of the report
6. Marcia Wilson, CRLC Chair and Voting Member for Los Angeles Trade-Tech College, emphasizes that if the steps are followed like listed on the outline, there should not be reason to pull any items since issues would likely be resolved by faculty during the program development process
- a. Mercy Yanez has a concerned about Step 7d; she believes that there needs to be additional clarification in regards to pulled items for discussion. CRLC members can technically pull items for discussion the day of the business meeting. The issue with pulling items the day of the meeting is that the colleges can be taken by surprise and not have time to prepare for a discussion. We want to ensure that the college has enough time to prepare for a discussion on the item being pulled, including inviting relevant faculty.
7. Technically an item could be pulled the day of the meeting, as per Robert's Rules of Order, however, we would like to have a mutual agreement that voting members will pull items the Monday before the meeting, out of courtesy and respect to give the college time to prepare for the discussion; this shall be a best practice
- b. College Resource Leadership Council 2018-2019 Calendar**
- i. Dr. Chamorro reviewed the CRLC Business Calendar for the 2018-2019 fiscal year.
  - ii. There are no monthly meetings on the months of July and August.
- c. Approve the Program Recommendation Process outline, College Resource Leadership Council 2018-2019 Calendar, and Program Recommendation Chart** with the following changes: take out the second bullet point from Step 4 of the chart and change Step 7d from the outlined process to "Strongly recommend to pull items for discussion by the Monday deadline to be discussed at the CRLC Business Meeting"
1. **Motion: Rodney Murray, Compton College; Second: Marla Uliana, Los Angeles Mission College; Unanimously APPROVED**
- d. Regional Pre-Approval Process**
- i. Marcia Wilson would like to recommend a streamline process for Pre-Approved programs (e.g. BIW/ITTP) specially programs that are part of a SWP initiative

- ii. Rocky adds that he would like to see more involvement and collaboration with the DSNs when creating the curriculum for Pre-Approved Programs similar to ITTP and BIW
- iii. The CLRC agreed that Pre-Approved Programs would be streamlined; no objections noted.

**e. LAOCRC Website**

- i. Maria Madrigal, presented the new LAOCRC Beta version website.
- ii. It is recommended that project leaders send their meeting dates and documents to upload them on the new LAOCRC website
- iii. Several members complimented Maria and the team on the excellent work on the website.
- iv. The website will go live by the next CRLC Business meeting in September 2018.
