## **11:00 - 12:00 noon - DeepDive Topics**

Based on the Interest Survey completed at the last consortia meeting (see attached), the highest ranked topic was the BOG Recommendations. As that is already being addressed, the next highest was DATA. Therefore, Lori has volunteered to lead this DeepDive Discussion.

### 11:00 - 11:20 - Program Inventory

The CoE has completed a draft doc (thank you Lori), which was sent out to our voting members last week. But it next needs both vetting for accuracy and input from potential users on what it contains, what is missing and what its purpose is. There is great interest from not only our community college, but also from K12/ROP, adult education and our WIBs.

### 11:20 - 11:40 - CoE LMI Support Tools

The CoE and VERATAC created two important support tools to help better understand LMI. Titled, "Making Use of Labor Market Information" and "Understanding Labor Market Information Resources", these two tools will be the focus of this DeepDive.
